## School Council and Eco Committee discussions

Week beginning 28th September 2009

### School Council

Please make sure each class has a class School council / Eco Committee meeting, this was raised at the meeting.

School Council are happy with the revised school rules.

I have been asked to check on what is happening with the blackout blinds for some classes, so that is my job this week from School Council.

### Eco Committee

Litter picking is now a Class 6 responsibility. The litter pickers will need to be in Class 6 room.

I talked about the 10:10 challenge. You may be asked by the children about this. How can we save 10% more energy (actually carbon dioxide load)? The children will ask you to discuss this in class both as a school target and for each of us and each of them (and their families) as a personal target. See <http://www.1010uk.org/> for more information.
